PREPAREDNESS BUT NOT HYSTERICS

CONGRESSMAN BOOHER BELIEVES IN NEEDED DEFENSE ONLY.

HE WARNS AGAINST WASTING OF MONEY

Makes Interesting Observations On the Situation and Asks Views of Constituents—A Big Question.

Representative Charles F. Booher, who believes that a member of congress should endeavor to represent the sentiment of his district, would be glad to have some light on what the people consider "adequate preparedness" as applied to the government. He believes, as do all good citizens, in preparedness but does not believe in going into hysterics and squandering the people's money unnecessarily.

This question promises to be one of the most important to come before the next session of congress and he is intensely interested in it and will be glad to receive suggestions from any of his constituents who may have positive views on the subject. In an interview yesterday with a News-Press reporter of St. Joseph he gave his own impressions in the following language:

Wishes Light on Point.

"They ask me to vote an adequate amount of money for national preparedness," said Congressman Booher, when seen at Savannah yesterday, "but they fail to say what in their opinion an adequate amount would be, and that's the point on which I want light.

"I wish all others in this district who are interested, would write me fully on the subject, and state what they consider a proper amount to invest, and what length of time we ought to take to complete the program of preparedness—whether one year, five years or twenty years. Ought we to do it all in the forthcoming session of congress or not?

"In 1912 the platforms of all the political parties declared for an adequate army and navy, but they also failed to be specific either as to time or amount.

"An appropriation of $400,000,000 for the army and navy would mean an increase of $140,000,000 for these two departments. But would the people be satisfied with an increase of $140,000,000? If the proposed increase is to be consummated in one year, would it be enough? And if you are going to spread the increase over a number of years, wouldn't it be too much?

Doesn't See Any Emergency.

"I can't see where any possible emergency, so far as this country is concerned, can come from the European war. If the war were to end today there is not a nation of Europe that could get together enough money to fight a first class power in fifty years.

"We have spent over $3,000,000,000 in the last sixteen years for the army and navy, and if we now have neither, then the money has been squandered. But I don't believe the money has been squandered. I believe we are reasonably prepared now, but of course we could become better prepared by spending more money.

"In this matter of preparedness, I believe congress will be governed very largely by the wishes of the president and the recommendations of the different departments; and I think we ought to be.

"We of the Middle West are less sensitive to conditions of defense than communities on the coasts, but I believe our coast defenses are in good shape, and that our harbors are not unprotected, as some contend.

What Started Propaganda.

"Diplomatic relations of this country with Germany started this preparedness propaganda, but since the 'German situation,' so-called, is blowing over, I think it is time to stop and take a reckoning. There's no use in having hysterics. Everyone who has asked me to vote for preparedness I have asked in turn to put some figure on what he thinks a congressman should vote for, but no one that I have talked with yet seems to have any very definite idea on that score. They say they want to be prepared, and stop there.

"When I tell them it's costing us more to maintain our little army than it costs Germany to maintain hers, they are surprised. And, of course, if we were to recruit up to Germany's strength no one could estimate the cost.

"I'm in favor of submarines and cruisers—cruisers that in time of peace could serve as merchant vessels—and if there was no private capital for that purpose, then let the government operate them as merchant vessels. I do not favor the building of dreadnoughts—not more than one or two, in any event. In my opinion cruisers and submarines would best serve our purpose. We can't man the ships we have now; what would we do if we doubled the number of ships?

Daniels' Program too Elaborate.

"The naval program of Secretary Daniels is too elaborate to be compassed in five years. Fifteen or twenty years, perhaps would be all right. I'm opposed to the program of sixteen big ships in five years.

"Congress will do its duty by the country. Every patriotic American wants this country to be in a position to care for itself; but there is no necessity for keeping the army and navy on a war footing all the time.

"The number of officers in army and navy can be increased without doubling the number of cadets at West Point and Annapolis, and one way to do this is to advance the time for retirement from sixty-three to sixty-eight years. I say make the graduate of the military schools stick until he has paid back to the country what it cost the country to educate him. This cost, by the way, is $20,000 per officer. Let no officer resign to take up some private occupation until he has reimbursed the government for that outlay."

GARRETT RESIGNS PLACE

Business Demands and People's Telephone Secretaryship Were Too Exacting.

W. O. Garrett has resigned as secretary and director of the People's Telephone company. The resignation has been in the hands of the board for some time but was not accepted until Saturday.

Pressure of business was given by Mr. Garrett as his reasons for resigning His hardware work in the firm of Garrett & Eckert has become so exacting that the two responsibilities were making him a "draft horse," he said.

Wednesday, October 27, was set as the day for the meeting of the stockholders of the company to elect a successor to Mr. Garrett.

Dr. James Hedley, who opened the Barnard course Friday night, was the speaker at the first of the Parnell course last night.

A REAL ATTRACTION

MUSIC LOVERS OF NORTHWEST TO HEAR ALICE NIELSEN.

TARKIO TO SEND PARTY

Papers of Nodaway County All Boosting Maryville's Lyceum Course.

Northwest Missouri is planning to come to Maryville, October 26, to hear Alice Nielsen in the opening number of the lyceum course. Every paper in Nodaway county last week made mention of the attraction and reported that music lovers will come to this city for the concert.

The Tarkio Avalanche says that Atchison county people are taking notice of the celebrity which Maryville is bringing to northwest Missouri in America's prima donna. A party may be expected from that city. Inquiries for seat reservations are coming in from all over this section to the lyceum committee.

The ticket sale is progressing satisfactorily, but the required number for the pledges to be met has not been sold. Four hundred adult and 300 school tickets must be received before the committee can be at all sure of paying out. The adult sale is now almost 300, but the student sale is slightly slow.

The experience in other years has always been that many wait until the last day. It had been hoped that this might be avoided this year. The price of a student ticket is the same as the price of a single admission to Miss Nielsen, so the season ticket is seen to be preferable.

Miss Nielsen carries her own piano with her everywhere, a Steinway. She is featuring her repertoire of Southern melodies in her tour of the smaller cities where rigidly classical programs are not so desirable.

More Home "Sheckles" Departed.

A traveling show drew a big crowd at the corner of Third and Main streets last night. "Jim," a negro singer, was good, and the song books were bought and the Maryville silver and bills went out in the auto last night by the dollar's worth. There was a larger crowd at the home talent picture show at the Fern, however.

Special to The Democrat-Forum.

Washington, Oct. 19.—President Wilton left this city this morning for Princeton, N. J., where he will vote today in favor of woman's suffrage.

A dispatch from Trenton and other New Jersey points say that the equal suffragists are extremely confident of victory. An army of 25,000 workers were out bright and early working for the cause all over the state.

The campaign has set a new record for political activity in this state. The intense whirlwind finishes of the women were revelations even to the old-time politicians.

Women to Meet for Plans.

Accordingly the ladies of the neighborhood are requested to meet at the school house Thursday, October 21, 1915, at 3 p. m., for this purpose. Let each one consider this a personal invitation to be present, for we shall need you.

Special to The Democrat-Forum.

Rome, Oct. 19.—Italy declared war upon Bulgaria today, after an all-day meeting of the cabinet yesterday. An army and a part of the fleet will be sent to the Balkans.

The announcement is expected to add to the pressure which the allies are bringing upon Greece and Roumania to make them enter the war against Germany and the Teutonic allies.

Greek Interpretation Rejected.

Athens, Oct. 19.—The allies have rejected Greece's interpretation of the obligations of the treaty between Servia and Greece by which Greece promised to go to the aid of Servia if attacked by Bulgaria.

Greece recently announced to the allies that the treaty referred only to Balkan troubles, and that Servia started the war upon Bulgaria. The representatives of the allied governments denied this.

The British and Russian ambassadors in Athens have formally notified the Greek government that they considered it the duty of Greece to go to the aid of Servia. They announced their intention also of materially helping Servia.

The other sign announces, "We can't borrow money on ash piles; so please don't ask for credit." That "ash piles" is rather good, considering that Mr. Gray is in the coal business.

Twenty Mexicans in the bandit gang wore the uniform of the Carranzistas. They burned a bridge to prevent aid reaching the scene.

It is reported that the Americans on the train lynched Mexican passengers because they assisted the bandits.

Kansas City, Oct. 19.—Three switchmen are dead and three seriously injured in a collision of two switch engines in the freight yards of the Kansas City Southern here this morning.

ASQUITH IS ILL; CARSON RESIGNED

SIR EDWARD'S WITHDRAWAL COMPLICATED BY SICKNESS.

CONSCRIPTION OR SECRECY THE CAUSE

Attorney General Was Disgusted by Tactics in Balkans and Hated Compulsory Enlistment.

Special to The Democrat-Forum.

London, Oct. 19.—Premier Asquith was stricken with an illness which will make a complete rest for several days necessary. The physicians announce that intestinal catarrh is the ailment.

No successor to Sir Edward Carson, former attorney general, will be chosen until the premier resumes his duties. The resignation of Sir Edward is the first open manifestation of the break in the cabinet.

The coming of General Hamilton from the Dardanelles is waited anxiously so that the cabinet may have first hand information. The near eastern question is now the big problem before the English people.

Sir Edward has made no public statement as to the causes for his resigning. Two prominent suppositions are given. The Morning Post believes that he was disgusted with the dilatory tactics of the government in the Balkan situation. This is associated with his well known aversion to secret diplomacy. Not only did the people not know what was being done, but even a large part of the cabinet was uninformed.

Another rumor is that conscription is imminent, and that the former attorney general was unalterably opposed to forcing men to fight. An exciting week in the house of commons is expected this week for the resignation has precipitated a fight which has been long expected.

The London Chronicle's parliamentary correspondent is responsible for the view that compulsory military service was the cause of the withdrawal of Sir Edward.

Kansas City Stock Market.

Kansas City Stock Yards, Oct. 18, 1915.—Cattle prices held steady for two days after Monday last week, but the last days of the week witnessed considerable weakness on beef cattle. Stockers and feeders sold fully steady during the week, except the lower grades which lost 15 to 25 cents. There was some decline on feeders after Wednesday, because of weaker bids from killers on half-fat cattle.

Receipts today are 31,000 cattle, market steady to strong. Packers had nothing to kill this morning, and bought some hurry-up orders early 10c higher. Another thing strongly favoring sellers today is that while last Monday the five leading markets had 89,000 cattle, today the total at these markets dropped to 65,000, 27 per cent less than a week ago. Demand for stockers and feeders was strong, and sales were higher than last week.

No really good cattle were here today, some middle class short-fed steers at $8.75 to $9, and best Kansas grassers $8.50, strong prices. Later the market was slow, and sales at $7.25 to $7.75 on grass steers were barely steady. Twenty cars quarantine cattle arrived, containing fifteen loads of fair steers weighing 900 to 1,000 pounds at $6 to $6.50. Some choice Panhandle yearlings were here today at $7.75 to $8.25, and high grade Colorado twos sold at $7.70, middle grades of stockers $6 to $6.75, common ones around $5.50.

In the hog yards order buyers had liberal orders, and paid strong prices $8.60 for tops. Packers stayed out of the early market, for the best hogs they bought later, bulk of all sales $8.15 to $8.55. The market advanced 10 to 25 cents last week, packers competing for most of the hogs, although allowing order buyers to outbid them on the cream of the crop a part of the time.

Conditions are healthy and the prevailing sentiment at the moment is bullish, packers paying up to the top price today. Medium weight butchers are in strongest demand, although heavy mixed brought $8.50. Light hogs must be fat to bring top price, some thin belted light ones today at $8.15.

Sheep and lambs sold steady today, receipts 13,000 head. Best fat range lambs brought $8.50, fair to good natives around $8.25, far ewes $5.45 to $6.00. Feeders make up more than half the supply, feeding lambs above 50 pounds bringing $8.00 to $8.20, some light feeders $8.35 today, light weights now being in strongest demand. Western breeders sold at $5.50 to $6.50, feeders $4.80 to $5.00, fair number of these received today. The first shipment of some 4000 Texas feeding lambs will be offered tomorrow.

A. J. Wills of Nodaway county had a car load of hogs on the St. Joseph market Saturday.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

IDENTIFIED BY FOOTPRINTS.

Bertillon System Used by Chicago Lying-In Hospital.

Chicago, Oct. 19.—Babies who happen to enter this world at the Chicago lying-in hospital need have no fear in future that they will not be handed over to their rightful parents. There will be no more mistakes in the distribution of infants born in the big wards of the institution.

In the first half of the life of every hospital arrival, a scientific method of taking footprints will identify each particular baby. Science has proved that there are no two footprints exactly alike, and some scientists claim to have proved that certain lines in the feet and fingers of a child conform to those in the feet and fingers of the mother. Thus the hospital officials hope to perfect the footprint system until they have double proof of the identity of every child.

PARCEL POST GROWING RAPIDLY.

Prediction Made That It Will Be Separated from Other Mail.

Kansas City, Oct. 19.—The time will come when the parcel post will be handled separately from other mail by different forces, just like railroad freight and passenger business is separated, says W. N. Collins, acting postmaster.

"The parcel post is just beginning to find itself," he said. "It is growing by leaps and bounds. The annual increase is nearly 15 per cent. Seventy-three percent of the parcel post mail delivered in Kansas City is done by carrier—the same men who carry the regular mail. Only the heavier parcels are now delivered in trucks."

Kansas City's problem of handling the Christmas parcel post rush this year will be a difficult one. Mr. Collins will hold a conference with his superintendents within a few days to discuss the matter.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give It When Feverish, Cross, Bilious, For Bad Breath or Sour Stomach.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. **NO GUESS WORK NOW.** I submit the test, the correction, and the cost to you before you are asked to pay a single cent. Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the **best stove polish** you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

These arms straighten out and your lenses loosen

This is a common fault of most rimless glasses. And it is positively harmful to the eye sight besides being annoying and dangerous. That trouble absolutely cannot happen with the new KeeLock. Lenses are cemented in solidly without pressure and they never loosen. You can hardly appreciate the handsome appearance of KeeLock mountings unless you see them. We will demonstrate if you will call.

SPECIAL FITTING
of
GOSSARD CORSETS

TWO DAYS
Thursday and Friday
October 21st and 22nd

Through a special arrangement with The H. W. Gossard Company of Chicago, we have engaged Mrs. Nona Maclean of their organization to assist our corsetieres in a special demonstration of Gossard Corsets.

The radical change in styles this season from the slinker slouch to erect, well-poised, somewhat military form, calls for considerable care and attention in the fitting of your new corset.

There is a decided tendency toward the adoption of a smaller waist this season and a fitted bodice, with a return to the full skirt of former periods. All of this has a direct bearing on your corset. Authentic information regarding these new styles is yours for the asking during this demonstration.

You can come and be fitted to any of the newer models and make your selections at a later date, if you so desire. Whether you expect to purchase your corset at this time or not, we suggest that you arrange to attend this demonstration.

While the original front-lacing Gossard Corsets sold at $25 some ten years ago, increased manufacturing facilities and an international distribution have reduced the price until now you can now purchase a Gossard Corset for as little as $5.00, $3.50 and $2.00.

It will be a privilege to serve you and to have you visit our Corset Department some time during this demonstration.

ST. LOUIS WOMAN SUFFERS 15 YEARS

Mrs. Rosa Bennett Escapes Operation After Taking Wonderful Remedy.

Mrs. Rosa B. Bennett of 2606B Olive street, St. Louis, Mo., was ill with stomach troubles for nearly fifteen years. She had a great deal of medical attention and took many treatments. She was advised to undergo an operation by one specialist.

Instead she took Mayr's Wonderful Remedy and found swift relief. She wrote:

"I was a sufferer for about fifteen years and I tried everything. I doctored with different doctors, and each one would give my trouble a different name. One said that I would never be any better until I was operated on, and another one said I had ulcers of the stomach. I could get no relief.

"I took Mayr's Wonderful Remedy.

"Now I can't praise your medicine enough."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Maryville, Mo.

Dear Sir: What would be the result of selling poor paint with this guarantee?

"If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We authorize him to do what is right at our expense."

That means pay damages, don't it?

Here's another guarantee:

"If your state chemist finds this paint adulterated, we will pay his bill, and send you $1,000."

We stand by both of these guarantees; as we are the maker, we know all about it. Yours truly,

PREPAREDNESS BUT NOT HYSTERICS

CONGRESSMAN BOOHER BELIEVES IN NEEDED DEFENSE ONLY.

HE WARNS AGAINST WASTING OF MONEY

Makes Interesting Observations On the Situation and Asks Views of Constituents—A Big Question.

Representative Charles F. Booher, who believes that a member of congress should endeavor to represent the sentiment of his district, would be glad to have some light on what the people consider "adequate preparedness" as applied to the government. He believes, as do all good citizens, in preparedness but does not believe in going into hysterics and squandering the people's money unnecessarily.

This question promises to be one of the most important to come before the next session of congress and he is intensely interested in it and will be glad to receive suggestions from any of his constituents who may have positive views on the subject. In an interview yesterday with a News-Press reporter of St. Joseph he gave his own impressions in the following language:

Wishes Light on Point.

"They ask me to vote an adequate amount of money for national preparedness," said Congressman Booher, when seen at Savannah yesterday, "but they fail to say what in their opinion an adequate amount would be, and that's the point on which I want light.

"I wish all others in this district who are interested, would write me fully on the subject, and state what they consider a proper amount to invest, and what length of time we ought to take to complete the program of preparedness—whether one year, five years or twenty years. Ought we to do it all in the forthcoming session of congress or not?

"In 1912 the platforms of all the political parties declared for an adequate army and navy, but they also failed to be specific either as to time or amount.

"An appropriation of $400,000,000 for the army and navy would mean an increase of $140,000,000 for these two departments. But would the people be satisfied with an increase of $140,000,000? If the proposed increase is to be consummated in one year, would it be enough? And if you are going to spread the increase over a number of years, wouldn't it be too much?

Doesn't See Any Emergency.

"I can't see where any possible emergency, so far as this country is concerned, can come from the European war. If the war were to end today there is not a nation of Europe that could get together enough money to fight a first class power in fifty years.

"We have spent over $3,000,000,000 in the last sixteen years for the army and navy, and if we now have neither, then the money has been squandered. But I don't believe the money has been squandered. I believe we are reasonably prepared now, but of course we could become better prepared by spending more money.

"In this matter of preparedness, I believe congress will be governed very largely by the wishes of the president and the recommendations of the different departments; and I think we ought to be.

"We of the Middle West are less sensitive to conditions of defense than communities on the coasts, but I believe our coast defenses are in good shape, and that our harbors are not unprotected, as some contend.

What Started Propaganda.

"Diplomatic relations of this country with Germany started this preparedness propaganda, but since the 'German situation,' so-called, is blowing over, I think it is time to stop and take a reckoning. There's no use in having hysterics. Everyone who has asked me to vote for preparedness I have asked in turn to put some figure on what he thinks a congressman should vote for, but no one that I have talked with yet seems to have any very definite idea on that score. They say they want to be prepared, and stop there.

"When I tell them it's costing us more to maintain our little army than it costs Germany to maintain hers, they are surprised. And, of course, if we were to recruit up to Germany's strength no one could estimate the cost.

"I'm in favor of submarines and cruisers—cruisers that in time of peace could serve as merchant vessels—and if there was no private capital for that purpose, then let the government operate them as merchant vessels. I do not favor the building of dreadnoughts—not more than one or two, in any event. In my opinion cruisers and submarines would best serve our purpose. We can't man the ships we have now; what would we do if we doubled the number of ships?

Daniels' Program too Elaborate.

"The naval program of Secretary Daniels is too elaborate to be compassed in five years. Fifteen or twenty years, perhaps would be all right. I'm opposed to the program of sixteen big ships in five years.

"Congress will do its duty by the country. Every patriotic American wants this country to be in a position to care for itself; but there is no necessity for keeping the army and navy on a war footing all the time.

"The number of officers in army and navy can be increased without doubling the number of cadets at West Point and Annapolis, and one way to do this is to advance the time for retirement from sixty-three to sixty-eight years. I say make the graduate of the military schools stick until he has paid back to the country what it cost the country to educate him. This cost, by the way, is $20,000 per officer. Let no officer resign to take up some private occupation until he has reimbursed the government for that outlay."

GARRETT RESIGNS PLACE

Business Demands and People's Telephone Secretaryship Were Too Exacting.

W. O. Garrett has resigned as secretary and director of the People's Telephone company. The resignation has been in the hands of the board for some time but was not accepted until Saturday.

Pressure of business was given by Mr. Garrett as his reasons for resigning His hardware work in the firm of Garrett & Eckert has become so exacting that the two responsibilities were making him a "draft horse," he said.

Wednesday, October 27, was set as the day for the meeting of the stockholders of the company to elect a successor to Mr. Garrett.

Dr. James Hedley, who opened the Barnard course Friday night, was the speaker at the first of the Parnell course last night.

A REAL ATTRACTION

MUSIC LOVERS OF NORTHWEST TO HEAR ALICE NIELSEN.

TARKIO TO SEND PARTY

Papers of Nodaway County All Boosting Maryville's Lyceum Course.

Northwest Missouri is planning to come to Maryville, October 26, to hear Alice Nielsen in the opening number of the lyceum course. Every paper in Nodaway county last week made mention of the attraction and reported that music lovers will come to this city for the concert.

The Tarkio Avalanche says that Atchison county people are taking notice of the celebrity which Maryville is bringing to northwest Missouri in America's prima donna. A party may be expected from that city. Inquiries for seat reservations are coming in from all over this section to the lyceum committee.

The ticket sale is progressing satisfactorily, but the required number for the pledges to be met has not been sold. Four hundred adult and 300 school tickets must be received before the committee can be at all sure of paying out. The adult sale is now almost 300, but the student sale is slightly slow.

The experience in other years has always been that many wait until the last day. It had been hoped that this might be avoided this year. The price of a student ticket is the same as the price of a single admission to Miss Nielsen, so the season ticket is seen to be preferable.

Miss Nielsen carries her own piano with her everywhere, a Steinway. She is featuring her repertoire of Southern melodies in her tour of the smaller cities where rigidly classical programs are not so desirable.

More Home "Sheckles" Departed.

A traveling show drew a big crowd at the corner of Third and Main streets last night. "Jim," a negro singer, was good, and the song books were bought and the Maryville silver and bills went out in the auto last night by the dollar's worth. There was a larger crowd at the home talent picture show at the Fern, however.

Special to The Democrat-Forum.

Washington, Oct. 19.—President Wilton left this city this morning for Princeton, N. J., where he will vote today in favor of woman's suffrage.

A dispatch from Trenton and other New Jersey points say that the equal suffragists are extremely confident of victory. An army of 25,000 workers were out bright and early working for the cause all over the state.

The campaign has set a new record for political activity in this state. The intense whirlwind finishes of the women were revelations even to the old-time politicians.

Athens, Oct. 19.—The allies have rejected Greece's interpretation of the obligations of the treaty between Servia and Greece by which Greece promised to go to the aid of Servia if attacked by Bulgaria.

ASQUITH IS ILL; CARSON RESIGNED

SIR EDWARD'S WITHDRAWAL COMPLICATED BY SICKNESS.

CONSCRIPTION OR SECRECY THE CAUSE

Attorney General Was Disgusted by Tactics in Balkans and Hated Compulsory Enlistment.

Special to The Democrat-Forum.

London, Oct. 19.—Premier Asquith was stricken with an illness which will make a complete rest for several days necessary. The physicians announce that intestinal catarrh is the ailment.

No successor to Sir Edward Carson, former attorney general, will be chosen until the premier resumes his duties. The resignation of Sir Edward is the first open manifestation of the break in the cabinet.

The coming of General Hamilton from the Dardanelles is waited anxiously so that the cabinet may have first hand information. The near eastern question is now the big problem before the English people.

Sir Edward has made no public statement as to the causes for his resigning. Two prominent suppositions are given. The Morning Post believes that he was disgusted with the dilatory tactics of the government in the Balkan situation. This is associated with his well known aversion to secret diplomacy. Not only did the people not know what was being done, but even a large part of the cabinet was uninformed.

Another rumor is that conscription is imminent, and that the former attorney general was unalterably opposed to forcing men to fight. An exciting week in the house of commons is expected this week for the resignation has precipitated a fight which has been long expected.

The London Chronicle's parliamentary correspondent is responsible for the view that compulsory military service was the cause of the withdrawal of Sir Edward.

Kansas City Stock Yards, Oct. 18, 1915.—Cattle prices held steady for two days after Monday last week, but the last days of the week witnessed considerable weakness on beef cattle. Stockers and feeders sold fully steady during the week, except the lower grades which lost 15 to 25 cents. There was some decline on feeders after Wednesday, because of weaker bids from killers on half-fat cattle.

Receipts today are 31,000 cattle, market steady to strong. Packers had nothing to kill this morning, and bought some hurry-up orders early 10c higher. Another thing strongly favoring sellers today is that while last Monday the five leading markets had 89,000 cattle, today the total at these markets dropped to 65,000, 27 per cent less than a week ago. Demand for stockers and feeders was strong, and sales were higher than last week.

No really good cattle were here today, some middle class short-fed steers at $8.75 to $9, and best Kansas grassers $8.50, strong prices. Later the market was slow, and sales at $7.25 to $7.75 on grass steers were barely steady. Twenty cars quarantine cattle arrived, containing fifteen loads of fair steers weighing 900 to 1,000 pounds at $6 to $6.50. Some choice Panhandle yearlings were here today at $7.75 to $8.25, and high grade Colorado twos sold at $7.70, middle grades of stockers $6 to $6.75, common ones around $5.50.

In the hog yards order buyers had liberal orders, and paid strong prices $8.60 for tops. Packers stayed out of the early market, for the best hogs they bought later, bulk of all sales $8.15 to $8.55. The market advanced 10 to 25 cents last week, packers competing for most of the hogs, although allowing order buyers to outbid them on the cream of the crop a part of the time.

Conditions are healthy and the prevailing sentiment at the moment is bullish, packers paying up to the top price today. Medium weight butchers are in strongest demand, although heavy mixed brought $8.50. Light hogs must be fat to bring top price, some thin belted light ones today at $8.15.

Sheep and lambs sold steady today, receipts 13,000 head. Best fat range lambs brought $8.50, fair to good natives around $8.25, far ewes $5.45 to $6.00. Feeders make up more than half the supply, feeding lambs above 50 pounds bringing $8.00 to $8.20, some light feeders $8.35 today, light weights now being in strongest demand. Western breeders sold at $5.50 to $6.50, feeders $4.80 to $5.00, fair number of these received today. The first shipment of some 4000 Texas feeding lambs will be offered tomorrow.

A. J. Wills of Nodaway county had a car load of hogs on the St. Joseph market Saturday.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

"A Shine in Every Drop"

IDENTIFIED BY FOOTPRINTS.

Bertillon System Used by Chicago Lying-In Hospital.

Chicago, Oct. 19.—Babies who happen to enter this world at the Chicago lying-in hospital need have no fear in future that they will not be handed over to their rightful parents. There will be no more mistakes in the distribution of infants born in the big wards of the institution.

In the first half of the life of every hospital arrival, a scientific method of taking footprints will identify each particular baby. Science has proved that there are no two footprints exactly alike, and some scientists claim to have proved that certain lines in the feet and fingers of a child conform to those in the feet and fingers of the mother. Thus the hospital officials hope to perfect the footprint system until they have double proof of the identity of every child.

PARCEL POST GROWING RAPIDLY.

Prediction Made That It Will Be Separated from Other Mail.

Kansas City, Oct. 19.—The time will come when the parcel post will be handled separately from other mail by different forces, just like railroad freight and passenger business is separated, says W. N. Collins, acting postmaster.

"The parcel post is just beginning to find itself," he said. "It is growing by leaps and bounds. The annual increase is nearly 15 per cent. Seventy-three percent of the parcel post mail delivered in Kansas City is done by carrier—the same men who carry the regular mail. Only the heavier parcels are now delivered in trucks."

Kansas City's problem of handling the Christmas parcel post rush this year will be a difficult one. Mr. Collins will hold a conference with his superintendents within a few days to discuss the matter.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give It When Feverish, Cross, Bilious, For Bad Breath or Sour Stomach.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

This is a common fault of most rimless glasses. And it is positively harmful to the eye sight besides being annoying and dangerous. That trouble absolutely cannot happen with the new KeeLock. Lenses are cemented in solidly without pressure and they never loosen. You can hardly appreciate the handsome appearance of KeeLock mountings unless you see them. SPECIAL FITTING
of
GOSSARD CORSETS

TWO DAYS
Thursday and Friday
October 21st and 22nd

Through a special arrangement with The H. W. Gossard Company of Chicago, we have engaged Mrs. Nona Maclean of their organization to assist our corsetieres in a special demonstration of Gossard Corsets.

The radical change in styles this season from the slinker slouch to erect, well-poised, somewhat military form, calls for considerable care and attention in the fitting of your new corset.

There is a decided tendency toward the adoption of a smaller waist this season and a fitted bodice, with a return to the full skirt of former periods. All of this has a direct bearing on your corset. Authentic information regarding these new styles is yours for the asking during this demonstration.

You can come and be fitted to any of the newer models and make your selections at a later date, if you so desire. Whether you expect to purchase your corset at this time or not, we suggest that you arrange to attend this demonstration.

While the original front-lacing Gossard Corsets sold at $25 some ten years ago, increased manufacturing facilities and an international distribution have reduced the price until now you can now purchase a Gossard Corset for as little as $5.00, $3.50 and $2.00.

It will be a privilege to serve you and to have you visit our Corset Department some time during this demonstration.

Mrs. Rosa B. Bennett of 2606B Olive street, St. Louis, Mo., was ill with stomach troubles for nearly fifteen years. She had a great deal of medical attention and took many treatments. She was advised to undergo an operation by one specialist.

Instead she took Mayr's Wonderful Remedy and found swift relief. She wrote:

"I was a sufferer for about fifteen years and I tried everything. I doctored with different doctors, and each one would give my trouble a different name. One said that I would never be any better until I was operated on, and another one said I had ulcers of the stomach. I could get no relief.

"I took Mayr's Wonderful Remedy. "Now I can't praise your medicine enough."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Letter to Mr. Geo. P. Wright,
Maryville, Mo.

Dear Sir: What would be the result of selling poor paint with this guarantee?

"If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We authorize him to do what is right at our expense."

That means pay damages, don't it?

Here's another guarantee:

"If your state chemist finds this paint adulterated, we will pay his bill, and send you $1,000."

We stand by both of these guarantees; as we are the maker, we know all about it. Yours truly,

F. W. DEVOE & CO.,
New York, Chicago and Kansas City.
